Education

Vignana Bharathi Institute of Technology (VBIT) Hyderabad, India
Bachelor of Technology in Computer Science and Business Systems *Sep 2024 – Jun 2028*

- **CGPA:** 8.42/10.00 **Latest Semester GPA:** 8.50/10.00
- **Relevant Coursework:** Data Structures & Algorithms, Object-Oriented Programming (Java), Computer Organization & Architecture, Digital Logic Design, Python Programming, C Programming, Probability & Statistics

Technical Skills

- **Programming Languages:** Python, Java, C, SQL, Html,CSS
- **Frameworks & Development:** Flutter, React, Node.js
- **Data Visualization & Analytics:** Power BI, Excel
- **Tools & Technologies:** Git, Docker, Linux, Microsoft 365

Project Work

F1 Data Analysis Dashboard | *Power BI, Excel*

- Built an interactive Formula 1 analytics dashboard using Power BI.
- Performed data cleaning and transformation using Power Query and created KPIs using DAX.
- Visualized driver, constructor, and race performance trends through interactive reports.
- **GitHub:** github.com/prasshhhzanth/f1-data-analysis

MyUnity – Smart Community Management Platform | *Flutter, Python*

- Developed a smart community management platform for residential societies.
- Implemented visitor management, complaint tracking, amenity booking, and EV reservations.
- Designed a scalable backend architecture with secure authentication and database management.

DEPay – Decentralized Payment Bridge | *Solidity, Ethereum, Kotlin, Node.js*

- Developed a blockchain-based cross-border payment solution using smart contracts.
- Enabled secure peer-to-peer transactions with transparent payment verification.
- Designed decentralized payment workflows focused on transaction security.

Awards & Achievements

- **1st Prize – Poster Design (2025):** Secured first place in the campus-wide Anti-Drug Awareness Event for excellence in visual communication.
- **GenAI Hackathon (2025):** Recognized by MeitY and NASSCOM for developing generative AI solutions.
- **GDG Solution Challenge (2025):** Developed tech-driven social impact projects through Google Developer Groups.
- **Build with India (2025):** Represented VBIT as Team blocks-z in a national competition organized by Hack with India.

Certifications & Digital Badges

- **Google Developer Profile:** Machine Learning Crash Course covering LLMs, Production ML, and Logistic Regression; Google Cloud Innovator.
- **Infosys Springboard – DevOps & Agile:** DevOps Foundation, Continuous Integration/Delivery (CI/CD), Software Engineering and Agile Development.

Leadership & Volunteering

- **Chair Person – AARNA (Freelancing Club):** Collaborating on cross-functional projects and managing freelance design/development workflows.
- **Graphic Designer – IEEE VBIT-SB:** Created and managed visual communication assets for technical events, campaigns, and digital platforms, ensuring consistent branding and professional presentation.
- **Design OC – Google Crowdsource:** Leading visual identity and creative assets for community-driven data contribution events.
